Art at Southern Cross covers many areas of the art experience. It’s planned so that it is fun and informative. Children are encouraged to explore different media and learn techniques that they can use in their art as well as their projects in the classroom. Senior students have the opportunity to learn the basic theory of colour, making tints and shades to use during our painting topics. In Early Years we concentrate on developing knowledge of how to draw what we see, and to develop an understanding of drawing ourselves and others. Completed Art Works are regularly displayed around the school and we encourage you to take the time to explore the many talents of our students.
Prep, Grade 1 and 2
Applying Paint

We are learning how to paint. We use geometric and matching patterns on this paper. We had to cut and dot over and over. Many animals let us draw colour. They look good and we made great patterns.
