Better Buddies is a highly successful social wellbeing program we have introduced to complement our Tribes activities. The values and behavioural agreements of each program reflect the culture of our school. Students are placed in multi-age groups from Prep to year 2 and from years 3 to 6 to encourage development of strong social skills. These groups rotate around a variety of activities that cover curriculum areas such as Music, Drama, Science, Art, Health and Trust games.

Take a look at the photos, they tell the story of enjoyment as they build strong relationships across the school.
