During Term 1, Middle School students took a journey back to prehistoric times to study **Dinosaurs**. They spent time deciding what they knew and what they wanted to know and enthusiastically got to work to gather as much information as they could about the amazing and **extinct** creatures. They learnt all about the three main periods in which Dinosaurs lived: **Triassic**, **Jurassic** & **Cretaceous**.
In partners, they explored a Dinosaur and represented that Dinosaur using paints, oil pastels, textas, pencils, crayons and paper crafts. The also explained everything they discovered on a plaque for display in our Grade 3/4 Dinosaur Museum.
