Harmony Day has become a very special day at Southern Cross Primary School. It really is a day of community closeness as we all come together to share stories, food and dress from our different cultures. There are approximately 48 different cultural backgrounds in the families that make up this community. This provides us with a diverse and interesting school with a rich knowledge and wisdom that comes from this amazing cultural heritage.

The parents and friends who belong to our Community Cultures Group are the catalyst for the success of this day. Just look at this amazing food! We were all able to enjoy the tastes from so many different cultures.

The day was also enhanced with whole school activities that were enabled by our teachers and student leaders.

Just look at these photos and you will see what an exciting, enjoyable and above all community bonding day this Harmony Day always is.
