On Wednesday the 2nd of May all of our Junior Primary School students worked in small groups of prep, grade 1 and grade 2 people to create brightly coloured and perfectly produced play dough. The prep room was filled to over flowing with excited students, teachers and loads of enthusiasm. The atmosphere was electric and the results were outstanding.

Special thanks to our wonderful Ms. Coelho who planned and instigated this stimulating educational experience.
The colour of my group’s play dough was blue. Our play dough was so squishy.

You can do anything with play dough.

Ashlee 1/2B

I liked working with the 1’s and 2’s.

I enjoyed the play dough and I was the first one to squish it!

Prerana Prep

When we made play dough it was fun.

We mixed all the ingredients together. I made a birthday cake for a little girl who was turning two. My cake was pinky red and it looked nice.

I enjoyed making play dough.

Marie 1/2A
Alecia and I made a big cake with play dough. We also made a big snake and it was long and stretchy.

Shiffa Prep

This is how you make play dough!

You will need 2 cups of flour and 2 tablespoons of oil. The next ingredients are 4 tablespoons of cream of tartar and 1 cup of salt. The next ingredient is 2 cups of hot water and then food colouring. Mix together it all together.

Danish 1/2A

On Wednesday May 2nd we worked in groups of 5. We each had a turn of getting the ingredients and we were making play dough. We mixed it and added food colouring to make it pink. We had fun!

Jahwae 1/2B
On Wednesday, May 2nd, we made play dough. I liked the squishing part and I also liked when I mixed the play dough. We made green play dough and I made a crab out of it.

Alexander 1/2B

I liked working with the Grade 1’s and 2’s in making play dough and doing fun activities.
I also liked making different shapes out of it.
