The Prep students have been working hard on learning new words on a weekly basis. The session was FUN! They were able to create words with play dough. This activity allowed the students to revise the words they had learnt in a creative manner. The students came up with not only words but they were also able to create sentences of their own accord. We hope you enjoy them!

I liked using the play dough I made a sentence ‘I can sleep.’ The play dough felt soft.
