ART - TERM 1
In Term One we have been working on learning to draw. In Prep we have drawn our families and used lines to create interesting pictures. In grade One and Two we have drawn our friends and a picture of ourselves then doodled a hat and coloured it in with felt pens. These have been displayed around the school for everyone to enjoy. In grade three and four we practiced drawing the features of faces and how lines can make a face look happy or sad.

Grade five and six have been going outside to draw what we see around the school. We have drawn trees and houses and the school playgrounds.
