On Tuesday the 15th of July the Grade 3/4 students went on an excursion to the Planetarium and Science Works. At the Planetarium, they learnt all about the seasons and why we have them. The students became professional astronomers and were able to identify all of the constellations in our galaxy, even the Southern Cross. After the Planetarium the students visited 3 exhibitions, Rescue Works, Think Ahead and Sports Works. The students became news presenters in an emergency, saved their friends from a sinking boat and raced Cathy Freemon, just to name a few of the day’s activities!
“Sports Works was great, we got to race each other in wheelchairs. We were so tired by the end of our race!”
-Alexander

“I enjoyed the Rescue Exhibition, I loved dressing up in the fire clothes and saving my friends!”
-Hale

“I loved Think Ahead, Calum and I got to talk to a robot! It was so cool!”
-Blake

“I loved Science Works because we got to do so many amazing activities. My favourite thing was the Planetarium, I enjoyed laying back and watching the stars and planets.”
-Daniel G
